

Acme Technologies ? Benefits

Synthetic demo document. Effective 1 April 2026.

Pension

Acme matches employee pension contributions up to 8% of salary. Employees are enrolled automatically after 3 months of service and may opt out at any time.

Health

Private medical cover through Brightside Health is available to all employees after probation, with the option to add partners and children at the employee's cost. Cover includes 24 sessions of talking therapy per year at no charge.

Eye tests are paid annually, with a £120 contribution toward glasses where required for screen work.

Learning

Each employee has a £1,500 annual learning budget and 5 paid days for study or conferences. Certification exam fees are paid in full and do not count against the budget.

Working pattern

Acme is hybrid: a minimum of 8 days per month in an office, with the rest remote. Teams choose their own anchor days.

Fully remote arrangements exist for a small number of roles and require Head of Department approval.

Other

- Cycle-to-work scheme
- 4 paid volunteering days per year
- Enhanced company sick pay (see the Leave Policy)
- Interest-free travel season-ticket loan
